

TABISH SAEED

QA ENGINEER (Manual | Automation | API | AI Testing)

Islamabad | tabishsaeed007@gmail.com | +92 319 8622337 | LinkedIn: [Tabish Saeed](#)

PROFESSIONAL SUMMARY

Detail-oriented QA Engineer with hands-on experience in manual testing, API testing, AI system testing, and basic automation for web and mobile applications. Experienced in validating AI-powered chatbot systems, testing intelligent workflows, and ensuring high-quality software releases through functional, regression, and exploratory testing. Proven ability to design and execute test cases, identify critical defects, and collaborate effectively within Agile/Scrum teams. Skilled in Selenium WebDriver, Postman, JIRA, JMeter, and AI workflow validation with strong knowledge of STLC and SDLC processes.

TECHNICAL SKILLS

Testing Types:

Manual Testing | Functional Testing | Regression Testing | Smoke Testing | Exploratory Testing | UI/UX Testing | Cross-Browser Testing | Responsive Testing | iOS & Android Testing | AI Testing | Chatbot Testing | AI Workflow Validation

Automation & Tools:

Selenium WebDriver (Basic) | Test Automation | JIRA | GitHub | Figma | Agile Testing

API & Performance:

API Testing (Postman) | REST API Testing | Performance Testing (JMeter)

Programming & Databases:

Python | SQL | MySQL | HTML | CSS | JavaScript

Methodologies:

Agile | Scrum | SDLC | STLC | Bug Reporting | Defect Tracking | Test Case Design

WORK EXPERIENCE

QA Engineer - Onsite

May 2026 - Present

M Techub LLc - Rawalpindi, Pakistan

- Collaborating with developers, designers, and product teams in Agile/Scrum environments.
- Validating REST APIs using Postman to ensure backend reliability and seamless integrations.
- Performing manual, regression, exploratory, and API testing for web and mobile applications.
- Conducting AI system testing for intelligent features, recommendation systems, and chatbot workflows.
- Testing a social media platform including authentication, feeds, user interactions, notifications, and real-time functionalities.
- Designing and executing detailed test cases and reporting defects with reproduction steps, logs, screenshots, and recordings.
- Currently testing an AI-powered fitness application, validating AI-generated outputs and personalized recommendations.

Junior QA Engineer - Onsite

July 2025 - March 2026

ITecExperts - Peshawar, Pakistan

- Logged and tracked 200+ defects using JIRA.
 - Performed manual testing across 8+ applications in multiple business domains.
 - Conducted API testing using Postman and basic performance testing using JMeter.
 - Performed UI/UX testing against Figma designs across multiple devices and browsers.
 - Created Selenium WebDriver scripts for login, signup, and regression test flows using Python.
 - Tested AI chatbot systems for conversational accuracy, intent recognition, and response consistency.
 - Executed 250+ test cases covering authentication, dashboards, payments, admin panels, and user workflows.
-

EDUCATION

Bachelor of Science in Software Engineering
UET Mardan, Mardan PK

Oct 2021 - July 2025
