

TABISH SAEED

QA Engineer (Manual Testing | API Testing | Automation Testing | AI Testing)

Islamabad, Pakistan | tabishsaeed007@gmail.com | +92 319 8622337 | LinkedIn: [Tabish Saeed](#)

PROFESSIONAL SUMMARY

Detail-oriented QA Engineer with experience in manual testing, API testing, AI system testing, and basic automation for web and mobile applications. Experienced in validating AI-powered chatbot systems, testing intelligent workflows, and supporting high-quality software releases through functional, regression, and exploratory testing. Skilled in designing and executing test cases, identifying defects, and collaborating within Agile/Scrum teams. Proficient with Selenium WebDriver, Postman, JIRA, JMeter, and AI workflow validation, with a solid grounding in STLC and SDLC processes.

TECHNICAL SKILLS

Testing Types: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Exploratory Testing, UI/UX Testing, Cross-Browser Testing, Responsive Testing, iOS & Android Testing, AI Testing, Chatbot Testing, AI Workflow Validation

Automation & Tools: Selenium WebDriver, Test Automation, JIRA, GitHub, Figma, Agile Testing

API & Performance: API Testing (Postman), REST API Testing, Performance Testing (JMeter)

Programming & Databases: Python, SQL, MySQL, HTML, CSS, JavaScript

Methodologies: Agile, Scrum, SDLC, STLC, Bug Reporting, Defect Tracking, Test Case Design

WORK EXPERIENCE

QA Engineer – Onsite

May 2026 – Present

M Techub LLC — Rawalpindi, Pakistan

- Collaborating with developers, designers, and product teams in Agile/Scrum environments.
- Performing manual, regression, exploratory, and API testing for web and mobile applications.
- Validating REST APIs using Postman to ensure backend reliability and seamless integrations.
- Conducting AI system testing for intelligent features, recommendation systems, and chatbot workflows.
- Testing a social media platform including authentication, feeds, user interactions, notifications, and real-time functionalities.
- Designing and executing detailed test cases, and reporting defects with clear reproduction steps, logs, screenshots, and recordings.
- Currently testing an AI-powered fitness application, validating AI-generated outputs and personalized recommendations.

Junior QA Engineer – Onsite

July 2025 – April 2026

ITecExperts — Peshawar, Pakistan

- Logged and tracked defects using JIRA, providing clear reproduction steps to support faster developer resolution.
- Conducted API testing using Postman and performance testing using JMeter.
- Performed manual testing across applications spanning multiple business domains.
- Performed UI/UX testing against Figma designs across multiple devices and browsers.
- Created Selenium WebDriver scripts in Python for login, signup, and regression test flows.
- Tested AI chatbot systems for conversational accuracy, intent recognition, and response consistency.
- Executed test cases covering authentication, dashboards, payments, admin panels, and user workflows.

EDUCATION

Bachelor of Science in Software Engineering

Oct 2021 – July 2025

UET Mardan, Mardan, Pakistan
